DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-15, drawn to keypads which are shift-arranged without inter-cross between the adjacent number keys in an input device.

Group II, claim(s) 16-19, drawn to a method of deciding if a user is authorized or unauthorized by comparing his finger action with the stored finger action in an input device.

Group III, claim(s) 20-32, drawn to a method of displaying image sequences comprised of a key image and a masking image in an input device.

2. The inventions listed as Groups I, II and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group I relates to a keypad that is shift arranged, whereas Groups II and III do not relate to this

feature. Group II relates to a method of deciding if a user is authorized or unauthorized by comparing his finger action with the stored finger action in an input device, whereas Groups I and III do not relate to this feature. Group III relates to a method of displaying image sequences comprised of a key image and a masking image in an input device, whereas Groups I and II do not relate to this feature. Thus, Groups I, II and III are not related to a single general inventive concept.

3. A telephone call was made to Edward Kwok on 10 June 2009 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
